

## Stainless Steel Manual Rewind Reels

AIR-WATER-STEAM-FOOD INDUSTRY-DIESEL (max 4000psi)

Stainless steel hose reels are ideal for the food processing, pre-rinse, wash down, chemical transfer and industrial solvent handling markets. Also suitable for coastal, off-shore and onboard ship in marine applications where the harsh environment of salt spray requires the use of stainless steel constructed hose reels.

### FEATURES:

- Lightweight compact design
- Heavy duty 304 Stainless Steel construction
- Standard 4000psi working pressure
- Adjustable drag brake to prevent hose overspill
- Wall, floor, bench or mobile mounting
- Supplied as bare reel - Hose extra

| Model Reference | Hose Capacity |      |      | Max PSI | Swivel In/Out | Reel Dimensions |     |     | Approx Weight Less Hose |
